## **INTERNSHIP PROGRAM IN HEALTH CENTERS**

### **General description and objectives**

The internship program in health centers is directed towards university students that wish to enhance their studies through direct, professional experience in Health Centers.

This program allows students to familiarize themselves with the workings and the equipment of Spanish health centers, as well as to benefit from hands-on contact with teams of professionals in the medical field.

### **Contents**

Theory:

1. The scientific foundations of medicine
2. Clinical skills: the elaboration of a medical history. Diagnosis, prognosis and treatment.
3. Communicative skills: the importance of communication and empathy with the patient.
4. Public health and health systems.
5. Sources of clinical and biomedical information.
6. Scientific research and methodology

Practice:

1. **ACTIVITIES IN THE EMERGENCY ROOM AND INTENSIVE CARE UNIT:** familiarization with medical histories, exploration in the emergency room, complementary tests, organization of the service, etc.
2. **ACTIVITY IN THE PEDIATRICS WARD:** neonatal unit, outpatient care and patient rounds during the morning hours.
3. **ACTIVITY IN THE OBSTETRICS AND GYNECOLOGY WARD:** Emergency room, outpatient care and surgical area.
4. **ACTIVITY IN THE INTERNAL MEDICINE WARD:** Outpatient care, patient rounds, specialist care (hemodynamics and interventional radiology)
5. **ACTIVITY IN THE SURGERY ROOM:** outpatient care in surgery, outpatient care in traumatology, understanding of different surgical techniques used in the operating room.
6. **ACTIVITIES IN THE PROFESSIONAL TRAINING AREA:** tumor board (weekly meetings), pharmacy and therapeutics committee (monthly meetings), multidisciplinary clinical studies committee (weekly meetings), quality assurance committee (weekly meetings).

### **Methodology**

The course is based on a tutorial organization, which means that students meet with the CLM tutor throughout the internship period when students' needs will be analysed and appropriate learning strategies will be devised to meet the learning objectives.

### **Assessment**

Attending meetings with the coordinator of the CLM HEALTH Center Internship Program is obligatory in order to have the right to be evaluated.

A total of 20% of the final grade will be based on active participation and attendance to the seminars and the individual interviews.

50% of the final grade will be based on the report provided by the external coordinator regarding the effort made by the student in the health center.

The remaining 30% will be based on the results obtained in the report that the

students must orally and verbally present at the end of the course.

### **Reading list**
